Flexclusive Saver

What is the interest rate?

Your rate depends on the balance in your account.

Account Balance	Interest rate AER/gross a year (variable) from 1 November 2024
£1 - £9,999	2.10%
£10,000 - £49,999	2.15%
£50,000+	2.20%

Receiving your interest

- Interest is calculated daily and paid annually on 31 December and on the date the account is closed.
- You can choose to have interest paid to you by having it added to your account, or by asking us to pay it into a different Nationwide current or savings account (as long as it is possible to make interest payments into that account) or a current account with another building society or bank.

Can Nationwide change the interest rate?

Yes, the rates are variable which means we can change them, up or down. The following sections of our **Savings General Terms and Conditions** explain how, and when we might do this:

- 'Variation of your interest rate and other account terms and conditions'
- 'How we will tell you about interest rate changes'.

You can always find our current rates in our branches or online at nationwide.co.uk/savingsrates.

What would the estimated balance be after 12 months based on £1,000, £10,000 and £50,000 deposits?

For customers with accounts opened on or after 1 November 2024
