What is the interest rate?

The interest rate is dependent on the balance in your account.

Account balance	Interest rate AER/gross a year (variable) from 1 November 2024
£1 - £9,999	2.05%
£10,000 - £49,999	2.10%
£50,000+	2.15%

Receiving your interest

- Interest is calculated daily and paid annually on 31 December and on the date the account is closed.
- You can choose to have interest paid to you by having it added to your account, or by asking us to pay it into a different Nationwide current or savings account (as long as it is possible to make interest payments into that account) or a current account with another building society or bank.

Can Nationwide change the interest rate?

Yes, the interest rates are variable.

Please see the “Variation of your interest rate and other account terms and conditions” and “How will we tell you about interest rate changes?” sections of the **Savings General Terms and Conditions** which set out when we can vary the interest rate and how and when we will notify you if this happens.

What would the estimated balance be after 12 months based on £1,000, £10,000 and £50,000 deposits?

For customers with accounts opened on or after 1 November 2024

Initial deposit	Interest rate AER/gross a year (variable) from 1 November 2024	Estimated balance after 12 months
£1,000	2.05%	£1,020.50
£10,000	2.10%	£10,210.00
