Instant Access Saver Issue 8

What is the interest rate?

The interest rate depends on your account balance.

Account balance	Interest rate AER/gross a year (variable) from 1 November 2024
£1 - £9,999	2.05%
£10,000 - £49,999	2.10%
£50,000+	2.15%

Receiving your interest

- We work out your interest daily. This is then paid into your account yearly (on the anniversary of your account opening).
- If you close your account early, we'll pay your interest on the day it's closed into another Nationwide current or savings account, or a current account with another UK provider. This account must be in your name, and be able to accept payments.

Can Nationwide change the interest rate?

Yes, the rates are variable. That means we can change them, up or down.

The following sections of our **Savings General Terms and Conditions** explain when we can do this, and how we'll let you know:

- 'Variation of your interest rate and other account terms and conditions'
- 'How will we tell you about interest rate changes?'

You can also check our current rates in your branch, or online at nationwide.co.uk/savingsrates

What would the estimated balance be after 12 months based on a £1,000, £10,000 and £50,000 deposits?

For customers with accounts opened on or after 1 November 2024

Initial deposit	Interest rate AER/gross a year (variable) from 1 November 2024	Estimated balance after 12 months
