Branch Easy Access

What is the interest rate?

The interest rate depends on your account balance.

Account balance	Interest rate AER/gross a year (variable) up to 31 October 2024	Interest rate AER/gross a year (variable) from 1 November 2024
£1 - £9,999	2.25%	2.05%
£10,000 - £49,999	2.30%	2.10%

Receiving your interest

- We work out your interest daily. This is then paid into your account yearly on each anniversary of your account opening.
- We'll also pay interest when you close your account.

Can Nationwide change the interest rate?

Yes, the rates are variable. That means we can change them, up or down.

Section 04 of 'Our Savings Terms and Conditions' explains when we can do this, and how we'll let you know.

You can also check our current rates in your branch, or online at nationwide.co.uk/savingsrates

What would the estimated balance be after 12 months based on £1,000, £10,000 and £50,000 deposits?

For customers with accounts opened before 1 November 2024

The estimated balance assumes the account was opened on 2 October 2024. It has been worked out based on the higher interest rate up to 31 October 2024, and then the lower rate from November onwards

Initial deposit	Interest rate AER/gross a year (variable) up to 31 October 2024	Interest rate AER/gross a year (variable) from 1 November 2024	Estimated balance after 12 months
£1,000	2.25%	2.05%	£1,020.66
£10,000	2.30%	2.10%	£10,211.64
£50,000	2.35%	2.15%	£51,083.22

For customers with accounts opened on or after 1 November 2024

Initial deposit	Interest rate AER/gross a year (variable) from 1 November 2024	Estimated balance after 12 months
£1,000	2.05%	£1,020.50
£10,000	2.10%	£10,210.00
£50,000	2.15%	£51,075.00

The figures in both examples above assume:

- No money is paid in or taken out
- There are 365 days in the 12-month period
- No further rate changes after the 1 November 2024.
